## COMPANY PROFILE

### HEALTH, SAFETY & ENVIRONMENT

#### PERSONAL PROTECTIVE EQUIPMENT

##### **Provision:**

- Protective clothing including coverall and all other personal protective equipment for different operations will be provided as needed. Necessary measures shall be taken to ensure the protective clothing and other personal protective equipment are effectively worn.

##### **Head Protection:**

Employees shall wear protective helmets while working in areas where there is possible danger of head injury from impact, or from falling or flying objects, or from electrical shock.

- The above areas shall be designated as “Hard Hat Areas” and notices shall be displayed.
- Persons with long hair shall wear head covering nets to protect hair from coming into contact with moving parts of machinery.

##### **Eye and Face Protection:**

Employees shall be provided with eye and face protection equipment when machinery or operations present potential eye or face injury from physical, chemical or radiation agents.

Face and eye protection equipment shall be clean and in good repair. The use of this type equipment with – structural or optical defects shall be prohibited.

# MAAL CONTRACTING L.L.C

---

## COMPANY PROFILE

### HEALTH, SAFETY & ENVIRONMENT

#### **Protective Clothing:**

Adequate and suitable protective clothing shall be provided for any person employed from hazards such as chemical liquids and vapors, excessive heat and cold, electricity impacts, ionizing radiation and also general weather conditions.

#### **Hand Protection:**

Adequate and suitable hand protection shall be provided for any persons handling rough abrasive, sharp or excessively coarse material such as reinforcement rods, pre cast concrete etc., toxic and corrosive materials, electricity, hot materials.

#### **Foot Protection:**

All personnel on operations or in areas where foot injury could occur must wear standard safety shoes/boots with metal toecaps. Ordinary leather or rubber shoes, including slippers or sandals, shall not be allowed in these areas. Special electrical safety shoes should be used by those involved in electrical trades.

#### **Use of Hand Tools:**

Correct maintenance and use of hand tools will prevent injuries and lead to more efficient operation. A large proportion of cuts, eye injuries, etc. are caused by the poor condition of tools and work pieces, and the incorrect use of hand tools. The following general rules shall apply to the use of hand tools:

- a) All tools should be in safe condition when used.

# MAAL CONTRACTING L.L.C

## COMPANY PROFILE

---

### HEALTH, SAFETY & ENVIRONMENT

- b) An individual holding tools permanently should ensure that they are safe for use.
- c) Where any tool has a wooden handle, it should be of the correct size, and correctly and securely filled and free from oil and grease.
- d) Tools should be used only for the purpose of which they are designed and in the correct manner and not be adapted or modified in any way.
- e) Tools should not be carried up or down ladders by hand, nor thrown from one level to another or from one job place to another.
- f) When not in use, tools should be correctly stored. Tools lying on the floor sin walkways and work tables represent an unsafe condition.
- g) Tools must be periodically and thoroughly cleaned with non-irritating solvent as a protection against corrosion damage.
- h) Moving and adjustable parts must be lubricated to prevent wear and misalignment.
- i) Tools shall be properly maintained.

### **Electrical Powered tools, including Wood working machines:**

Power tools accidents can occur by improper handling and poor maintenance of equipment. The proper training of workers ensures prevention of accidents.

- a) The operator shall ensure that his work place is adequately secured before the tool is operated, that the key is removed from the chuck and that all moving parts are motion less before selling the tool.
- b) Maintenance of equipment should be regular and systematic with all worn or damaged equipment replaced or repaired immediately.

### HEALTH, SAFETY & ENVIRONMENT

#### EMERGENCY RESPONSE PROCEDURES

Although the focal point of MAAL Contracting LLC's Safety Program is prevention, should an emergency situation arise, we shall follow the appropriate emergency response procedure detailed in this chapter. Emergencies are defined as "any incident which places or is capable of placing human life into immediate danger or causing massive property damage and which requires immediate and urgent action".

Emergency phone numbers:

Ambulance: 998

Fire/Civil Defense: 997

Police: 999

#### Accident Response Procedure:

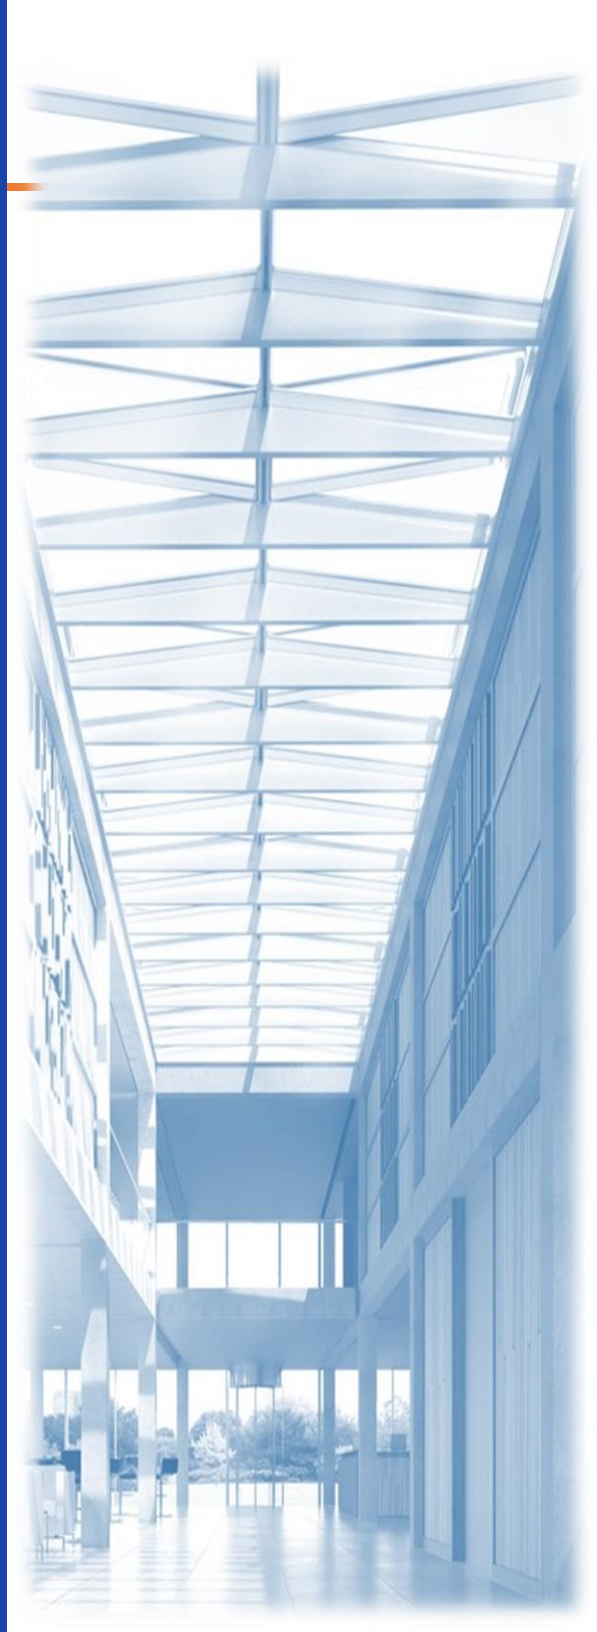

Upon occurrence, immediately report the accident to the area foreman or supervisor, who should go to the accident site and assess the extent of injuries and/or damages.

- For minor injuries not perceived to require professional medical treatment (such as minor cuts or burns), administer first aid using the supplies in the site first aid box. Notify the safety officer of the accident.
- For injuries requiring professional medical treatment, immediately arrange to notify the Safety Officer.
-
